Overview

With Travelers Auto, you can offer not only a competitive price to a wide range of customers; you can also offer unique endorsements, value-added services and tailored coverages.

[Quantum Auto 2.0](#) [Back to Top](#) ▲

Quantum Auto 2.0, now available in most states, has been completely re-engineered to deliver competitive pricing upfront – and more reliable performance over time.

More competitive rates for more people.

For example we have lowered our rates for many drivers with mid-market insurance scores and incident histories so you can compete more effectively for less-than-perfect drivers.

Four attractive packages.

Packages include:

Our **Responsible Driver Plans** that offer valuable features like Accident Forgiveness and Decreasing Deductible®.

Our **Premier New Car Replacement**® plan that will replace a totaled car in the first five years with a brand-new car of the same make and model as the current year.

Our **Premier Roadside Assistance**® plan that gives customers access to towing and emergency car services. Plus adds trip interruption coverage and personal property coverage.

Youthful driver leniency.

We have reduced the premium impact when tenured family customers add a youthful driver, including no surcharge for permit drivers.
